

GY - YELLOW GARDEN HOSE

TECHNICAL CHARACTERISTICS

SPECIFICATION: N/A

APPLICATION: The hose is widely used for irrigations and washing in the parks, community, factories and families. Being light, clourful, flexible and with excellent resistant to hard weather conditions, this hose is the ideal matched product of garden irrigation. Compared with the green garden hose, the yellow garden hose is thicker, this gives it a higher working pressure, better abrasion resistance and longer service life.

TUBE: Germproof PVC, it will not produce fungus or moss.

REINFORCEMENT: 24 strips fiber can endure high water pressure

COVER: Ultraviolet radiation resistant PVC

TEMPERATURE RANGE: -5 degrees C to +65 degrees C

SAFETY FACTOR: 3:1
